Technologies

Skills - React, Next, Redux, Express, Context Api, Typescript, Knex, PostgreSQL, JSX, HTML, CSS, Fetch API

Tools - Postman, React Dev Tools, pgAdmin, Heroku, Vercel, Slack, Zoom, Chrome Dev Tools, Git, Github

Testing - TDD, E2E, Mocha, Chai, Cypress, Postman, Fixture Stubbing, Github Actions(CI)

Projects

Grant Guru

- Developed a scholarship and grant exploration app with a responsive layout for various displays.
- Utilized React Hooks, Typescript, controlled forms, React Router, and Redux for state management.
- Implemented end-to-end Cypress testing, including sad paths.
- Technologies used: React, Typescript, Redux, React Router, Cypress, Git/GitHub.

New York Times Clone

- Developed a user-friendly news app with Next and Context API for data management with deployment on Vercel
- Designed a responsive UI with a mobile first focus, modern styling, and dynamic routing.
- Hid API key and fetched the NYT data, and in the local environment run Puppeteer script to scrape article text.
- Technologies used: Next, Tailwind, Context Api, Puppeteer, Fetch API, Git/GitHub, GitHub project board, CSS, HTML.

Animation Contemplation

- Created a single-page app for managing anime character quotes, featuring a responsive, mobile-first design.
- Seamlessly integrated React Router and Express API for backend data handling.
- Employed Cypress for end-to-end testing.
- Technologies used: React.js, Cypress.js, Express.js, Heroku, Javascript, HTML, CSS, Git, Github.

Experience

Webstacks (Digital Agency)

San Diego, CA

Technical SEO Analyst

October 2021 – March 2022

- Automated keyword extraction with Python scripts; audited and optimized pages for Core Web Vitals using Lighthouse.
- Conducted technical SEO audits, prioritized tasks, and optimized blog content (headers, links, etc.)

ID.me (SaaS start-up)

McLean, VA

Identity Management Specialist

February 2021 – June 2021

- Worked remotely, maintained compliance; detected, investigated, and reported fraudulent activities.
- Audited processes to meet government standards; supported agencies by verifying digital identity and documents.

Housecall Pro (SaaS start-up)

San Diego, CA

Growth and Innovation Associate

July 2019 – August 2020

- Developed lead qualification process, trained interns; presented SaaS automation techniques to stakeholders.
- Analyzed social media data for marketing opportunities; generated 100+ leads with low acquisition cost.

Education

Turing School of Software and Design

Remote

Front End Developer, Software Engineer

August 2022 - April 2023

- Accumulated over 1500 hours of programming experience over a 9-month intensive ACCET-accredited program.
- Learned principles of mobile-first development and responsive design for modern frameworks like React.
- Designed data models for applications, integrated external APIs, and created JSON contracts with the BE team.
- Built E2E testing, continuous integration, mock data servers, custom domains, and deployments.

University of West Virginia, John Chambers College of Business and Economics

Morgantown, WV

Bachelor of Business, Finance

August 2017 - August 2019
